Available with  
**TestWise for TruBurst**  
software

**James Heal**  
Extraordinary Testing Solutions

TruBurst is used to test a wide array of products; textiles, medical supplies, paper, tin foil and plastic items - it has even been used to test mosquito nets.

### KEY BENEFITS

#### TestWise Software

As standard, TruBurst is supplied with **TestWise Lite**. This allows test results to be saved to a PC and printed.

**TestWise Pro** gives the user full control of the test parameters, offering the facility to set-up complex exercise, recovery and fatigue tests. **TestWise Pro** will be invaluable to companies involved in product Research and Development and to laboratories who wish to offer a wider variety of tests.

#### Intuitive Touch Screen

The 7 inch colour capacitive touch screen (as used on a Smartphone) is fast and very responsive to maximise user efficiency and significantly minimise training time.

#### Automatic Flow Control

Substantial time-savings - increased accuracy, consistency and reliability of the results.

#### Laser Distension Measurement

Non-contact laser distension measurement ensures pin point accuracy and excellent repeatability of test results.

| Dimensions (mm) | Weight (kg) |
|-----------------|-------------|
| Height: 633     | 69.3*       |
| Width: 400      |             |
| Depth: 526      |             |

\*Weight of instrument (including largest dome assembly)

#### Tool Free Dome Change

Five interchangeable domes with automatic recognition of dome size. Tool free dome change accelerates testing and minimises downtime.

#### Diaphragm Correction

Software prompts the user to do a diaphragm correction after testing.

#### Automatic Time to Burst

A warning message will be displayed if the specimen does not burst within the specified time.

#### Lifting Safety Guard

An integral part of the instrument, sliding up to provide easy access and better utilization of bench space.

#### M&S Approved

TruBurst is approved by leading UK retailer Marks & Spencer.
